- Additional, optional networking opportunities

Registration

Visit scoar.org/fall-2024-exhibitors. Spaces are limited. Register your booth early to ensure preferred placement.

About SCOAR

SCOAR is a local users construction roundtable with a 12-state footprint. Our members include owners such as Duke Energy, LG&E & KU, Southern Company, UPS, large EPC and general contractors, subcontractors, and others supporting the construction industry.

The opportunity to exhibit at SCOAR conference events has been extremely valuable to ROCKWOOL. SCOAR provides a very welcoming atmosphere for generating brand awareness and building relationships. Throughout the event, leaders of SCOAR proactively encouraged all attendees to “spend time visiting with our exhibitors, as they have some great products and information to share.” This speaks to the benefit of being involved—through positive and productive networking. I would highly recommend organizations to not only become a member, but to also participate as an exhibitor!

Jack Blundell
Technical Sales Manager
ROCKWOOL Technical Insulation
